MONTHLY REPORT FOR THE CARTOGRAPHY DIVISION

Month of June 1959

A. Major Research and Technical Support Activity

Summary of Cartographic Production and Accomplishment:

The backlog of work in the Division decreased from 570 to 547 projects during June due principally to a slight decrease in number of requests accepted, a very heavy schedule of completions, and the cancellation of obsolete job requests. D/GC accepted requests for 128 new maps and charts and completed 135 during the month. It is anticipated that completions will exceed requests during July and August and a continued reduction in the backlog effected.

A map on West Africa for NIE 70-59 was completed as well as 3 additional maps on Africa for MR 2-59. The Department of State's "Foreign Service Posts in Africa" map was also completed and each indicates the current interest in Africa.
